

The Faxon Quick Connect

“ALL NEWS THAT’S FITTING”

OCTOBER 2019

WHAT'S NEW...

Faxon recently brought some life back into our website! Come check out our new look...

There is even some talk of adding the option to do some ordering online, so stay tuned. A big thank you to Jenny Fleming for all her hard work and time on this project.

You can also stay connected with Faxon on a variety of social media platforms, Facebook, Instagram and Twitter. Visit www.faxonengineering.com or click on the box below to come visit us and see our **About** page to find some new and familiar faces to the Faxon Family!

Faxon Funnies...

What did the tree say to autumn?
leaf me alone.

What did one autumn leaf say to another?
I'm falling for you.

Did you hear about the tree that had to take
time off of work in autumn?
It was on paid leaf.

FEATURED...

Allenair Corporation is the leading manufacturer for rotary index tables, air cylinders, hydraulic cylinders, valves, pumps, as well as accessories and special order needs. Allenair is located in Fremont, Ohio and services the entire United States and is a leading distributor overseas. Their products are built to meet the ever increasing demand for automation and customer service is their number one priority. The combination of their quality products and outstanding customer service has made them a leader in the fluid power industry. Allenair is proud to announce that they are now a part of the Alkon Corporation. Alkon Corporation is a multinational manufacturer and global supplier of superior quality valves, fittings and flow controls. Alkon's main facility in Ohio, has grown from 7,000 to over 60,000 square feet.

HOW TO...

THE 4 MOST COMMON HYDRAULIC HOSE BUYING MISTAKES:

1. Don't buy on price alone.
2. Abrasion considerations.
3. Take care not to over- or underestimate covers.
4. Don't risk losing warranty guarantees.

Ultimately, selecting the right hose can be a struggle, but knowing what you need to consider can help cut through the immense number of options. By selecting the right hose from the outset, original equipment manufacturers (OEMs) can help customers optimize their investments and lower the cost of ownership. Avoiding maintenance and warranty issues also helps improve the bottom line of the OEM, while maximizing the number of usable hours on the machine.
